7th National Aquaculture Extension Conference

June 7th – 11th, 2021

Holiday Inn by the Bay

Portland, Maine

Please mark your calendars and join us for the 7th National Aquaculture Extension Conference to be held June 7th – 11th, 2021 at the [Holiday Inn by the Bay](#) in Portland, Maine.

The conference is co-sponsored by the USDA National Institute of Food and Agriculture's (NIFA) five Regional Aquaculture Centers and the NOAA National Sea Grant Program. Held approximately every five years since 1992, this unique conference has provided a forum for professional development and growth for public sector employees with all levels of experience and years of service in aquaculture Extension, outreach and education.

As with the last conference held in Boise, ID there will be plenary and technical sessions relating to emerging issues in aquaculture Extension, professional development opportunities, and presentations on Extension methods and other topics. The conference program will be developed for individuals working in the public sector who have Extension education and outreach responsibilities for the diversity of species and disciplines associated with US aquaculture. Tours of Maine aquaculture operations are currently being planned.

More details will be forthcoming as the Program Planning Committee begins work on the conference program and agenda. Your input and suggestions for agenda topics or themes will also be solicited.

For more information, you can contact the conference co-Chairs listed below:

Forrest Wynne, fwynne@uky.edu

Dana Morse, dana.morse@Maine.edu

See you there!
